

The 45th Swiss Animal Nutrition Conference

"Animal Nutrition in Changing Times"

Join us at the 2025 Swiss Animal Nutrition Conference to explore the latest research and developments in animal nutrition during these changing times. The event will feature keynote speeches and research talks from leading experts, offering insights into current trends and innovative solutions to challenges in Switzerland and beyond. Attendees can also enjoy an interactive poster session and plenty of opportunities to connect with others passionate about advancing animal nutrition.

- **Date:** Tuesday, 27th May 2025
- Location: Forum AgroVet-Strickhof, Eschikon, 8315 Lindau (CH)
- Organisa- Mutian Niu, Elli Broxham (ETH Zurich)
 - tion: Markus Rombach, Maike Heuel (AGRIDEA)
 - Joël Bérard (Agroscope)
 - Melissa Terranova (AgroVet-Strickhof)
 - Josef Gross (University of Bern)
 - Annette Liesegang (University of Zurich)
- Language: English (German translation of the presented slides)
 - **Scope:** The conference provides participants with an opportunity to deepen their knowledge in the field of animal nutrition, guided by the latest scientific findings. Attendees will explore current and future research developments in animal nutrition, nutrient metabolism, and nutritional physiology, gaining insights that could inspire innovative ideas. The event also fosters active exchange and collaboration among participants, allowing them to engage meaningfully with peers and experts in the field.
 - Audience Researchers, students in animal science, teachers, employees of companies and organizations, agricultural advisors, other interested persons.

Tuesday, 27th May 2025

08.00	Registration and welcome coffee	Conference Fee / student price
08.30	Welcome	• CHF 160 / 120
	Mutian Niu, ETH Zurich, Switzerland	First Author Poster (submission here)
	Morning keynotes and research highlights	• CHF 0
	Josef Gross, University of Bern, Switzerland	The conference fee includes lunch, refresh- ments and a digital version of the conference
08.40	Keynote: Sustainable dairy nutrition to minimize nitrogen losses in dairy cattle	proceedings. Not included in the conference fee are the costs for the printed conference proceedings
	Jan Dijkstra, Wageningen University & Research, the Nether- lands	(CHF 25 plus VAT + shipping)
09.20	Keynote: Novel uses of grass increase resilience in times of change	
	Marketta Rinne, Natural Resources Institute Finland, Finland	Pogistration
10.00	Keynote: Fiber in the nutrition of non-ruminant animals with special emphasis on pigs	Registration Please register <u>here</u> . By registering you accept the
	Knud Erik Bach Knudsen, Aarhus Universit, Denmark	General Terms and Conditions of AGRIDEA
10.40	Coffee break & poster exhibition	(Course No.: 25.017). You can find them at https://www.agridea.ch/de/allgemeine-ges-
11.20	Research talk: Choline: a required nutrient in dairy cows	chaeftsbedingungen. Cancellation
	Usman Arshad, ETH Zurich, Switzerland	Cancellation up to one week before the start of
11.35	Research talk: Feed Efficiency or Protein Efficiency: Which Indicator is Preferable for Reducing Dietary Protein In- take?	the course is free of charge. For later cancella- tions, a fee of CHF 100 will be charged to cover expenses incurred. We reserve the right to in- voice any additional costs incurred, e.g. due to
	Marion Lautrou, Agroscope, Switzerland	reservations already made (their general terms and conditions apply).
11.50	Lunch	The full course fee will be charged in the event
11.50 13.00	Lunch Poster exhibition	
		The full course fee will be charged in the event
	Poster exhibition	The full course fee will be charged in the event of no cancellation or partial participation. General requests about conference
	Poster exhibition Afternoon keynotes and research highlights	The full course fee will be charged in the event of no cancellation or partial participation.
